

## **Lecture Videos on Role of Trephine Core Biopsy In Hematology**

| <b>Sr. No.</b> | <b>Topics</b>                                                                     |
|----------------|-----------------------------------------------------------------------------------|
| 1.             | How To Interpret And Report BM Aspirate                                           |
| 2.             | How To Interpret And Report BM Biopsy (Cellular Components)                       |
| 3.             | Bone Marrow Stroma and Anemia                                                     |
| 4.             | Acute Leukemias 1 – Classifications FAB , WHO,2017 , Diagnosis of ALL             |
| 5.             | Acute Leukemias 2 – Diagnosis of AML                                              |
| 6.             | Multiple Myeloma and Waldenstrom Macroglobulinemia                                |
| 7.             | Myeloproliferative Neoplasms 1 – Molecular Basis ,CML,CML-AP , CML-BP ,CNL , aCML |
| 8.             | Myeloproliferative Neoplasms 2 – Molecular Basis ,ET , PV , PMF                   |
